PRAYER REQUEST

WHERE DOES OUR HELP COME FROM?

The economic and social crisis in Lebanon seems to be spiraling out of control and is affecting everyone. In the last few months, the local currency accelerated its free fall, while shortages and rationing of fuel, electricity, and medicine are driving people to even more despair, anger, and hopelessness.

Despite everything, we know and believe that the help the families we serve receive comes straight from the Lord, and many of them recognize it too. To them, it is so much more than material assistance. It is a reminder that God has not abandoned them, that He cares about them, and that He will take care of them.

Please pray that our church partners and our team would always lift up our eyes to the Lord, and rest assured that our help will continue to come from Him, so we can praise Him in this storm.

“ Meet Cheikha

“I am Lebanese and I have four grown-up sons, one of them with Autism, whom I raised as a single mother.

Since I met Roula, the church has been helping me with everything I needed, from the kitchen to the bathroom! They gave me food vouchers, winter items, hygiene items, and so much more.

I thank God because He placed her in my path. I was walking in Beirut after the blast, crying and thinking out loud. I was wrestling with God, I was worrying all the time. There was no life anymore. Roula and the church came and gave us life. They are such a blessing to us.
